Portfolio of Work • Diane Stelken Associates

Featured Company: John Aaron, Milestone Planning & Research
Profile: Firm specializes in Project & Portfolio Management solutions for technology based projects.
Project Overview: Redesign update website

Our Clients Rock! And, here's what they say about us...

"Diane and her team developed our website www.milestoneplanning.net, and the site gave us instant credibility in the project management market with some very large, high tech customers. Diane demonstrated an ability to listen and to understand exactly what we were trying to achieve, and then was able to translate that into an imaginative and effective solution for us. She and her team showed a remarkable talent for capturing the essence of our highly complex product and services and turning that into an easily understandable, visually attractive and compelling message to those who visit our site. They stayed with it until every aspect of the site hit the intended mark.

We are extremely pleased with the results and the value that we received from Diane Stelken Associates. We are happy to give them the highest possible recommendation."

Sincerely,

John M. Aaron, PhD
President and CEO
Milestone Planning and Research, Inc.
Chicago, IL
