Our CLIENTS SHINE! And, here's what they say about us...

I have been turning to Diane Stelken Associates for graphic design expertise for at least a dozen years. Projects have included logo development, billboards, print ads, brochures, and direct mail. The design work is beautiful, and that's important because in many cases, Diane and Julie's work is the first impression we make on potential customers.

Diane is a joy to work with and I definitely consider her a part of our team. Our relationship is very collaborative as we both strive together for perfection and an end result that makes you go, "Wow." She's got quite an eye for photography, too. Yes, she was the one behind the camera on the beautiful picture of the twin girls on the cover of our Health Source magazine!
